## IN THE LONG RUN

**T**hey don't have the virus yet. But they are showing symptoms of a highly contagious disease that is more sinister and deadly than Covid-19. It started in the first century AD and continues to this day. It's the Pandemic of Casual Christianity. The church addressed in the Book of Hebrews was one of the original clusters.

The symptoms of this disease are alarming: Neglecting salvation. Drifting from the Gospel. Skipping church. Running after strange teachings. Skirting the edge of apostasy. And many more. All second generation concerns.

Hebrews is a sermon scripted for a church in crisis. With scientific precision, the Preacher diagnoses the root cause of their problems: Inadequate Christology. They don't know Jesus well enough. As a spiritual health scientist, the Preacher not only prescribes the cure. He also administers it in a riveting message that still speaks today.

*In the Long Run* is the theme of 40.Day 2020. It's a listening journey through the Sermon to the Hebrews. You are invited to zoom in starting from July First 2020.
